STEM AT HOME

(Note: This image is from their web site. If we can't use it, then I could come up with something different.)

Visit [Pitsco STEM@Home](#) to access some **free hands-on STEM activities** that you can do with children and adolescents at home (grades K-9). There are also links to numerous **resources available on their blog** to help you and your children better understand the **science behind everyday things** such as [tortilla chips](#), [cheese](#), and [bicycles](#). If you are looking to purchase STEM-focused kits, this is a good source for that as well.
